## Letter form the publisher

I heard it said if you don't stand for something, you'll fall for anything. Do you believe that? Let's examine this dilemma further. The moon is made of green cheese, there in a man in the moon, and fools rush in where angels fear to tread. Quite frankly, I'll take the latter. Things are going to get better in the sweet bye and bye. There's pie in the sky. Yes, 'chicken little' the sky is falling. Now! What about a 'pot' to piss in? Remember that? Ok,.. now how about a sewer system for Royal Lake? The longer we wait the more it will cost. The cost of living goes up baby boy. Bread used to cost Five cent, (\$.05) per loaf my Mother told me. I remember when gasoline was Fifteen cents per gallon. Go figure!

The real deal is go for it now, or pay more later. We must step up to the plate and play ball. Sanitation is a must and environmental concerns are fast approaching. Just think when ours or our neighbor's tanks overflows due to not being pumped out, and disposed properly or rain water/poor drainage causes it to smell like you know what. We are literally walking on it and carrying it into our homes, breathing in the stench, and putting ourselves right in the face of a problem.

Stand up for a better community life. Grab that sewer survey form that was sent to you complete it and return it. Now! If you misplaced your's, here's one attached. Bring it to the **Meeting: Fourth, (4th) Tuesday of the month, September 25, 2007 @ 6:00 pm Community Building**. Here's something to be proud of, just waiting for us to tap in on our resource. Royal Lake Improvement Committees owns; 1) Community Building 2) Basket Ball Court and 3) Playground with Equipment and Pavilion.

Everyday when God awakes you to a new day, it is the first day of the rest of your life. This is an opportunity for you to forgive and let go of the past. Realize one thing that if you live you should have learned. We are all in this together that's the beauty of life.

Therefore, we must agree to disagree and utilize our civilized community forums to create a better life. Community politics is difficult at best to enable inclusion. We fight for power, control, and wealth. That battle often times leaves scars. But we should not pour salt into those wounds.

## Letter form the publisher Cont

Where's the salve of healing? This calls for you to return to our community forums. When you come to those forums do not dwell on the past. Look towards the future, and plan for a successful future one step at a time.

Together our strengths and weakness will work things out. A few of us got together and are getting the mold out of the community building. Now it's time to finish the task. We need to paint up and clean up to make it presentable. I'm looking for a miracle, and I hope you will make Royal Lake Resort a better community. Thank you and may God Bless you and yours.

### TOWN HALL MEETING

Tuesday September 25, 2007

**GOOD NEWS GOOD NEWS:** Our IRS 501 (c) (3) Tax Exempt Status has been reinstated effective August 1994. We have a Pro Bono Tax Consultant, Ms Kimberly Franklin, President ASWA and Derrick Ballard asked if we would be interested in hosting GED Classes in the Community Building. See Derrick if you want to sign up for GED Classes it's a great program and there is the possibility of you obtaining a scholarship for College. What a kick off to a new beginning. We need to fix-up, paint-up, decorated, and clean our community building if we're to host GED Students. We got to represent. Please see Gale, or Fancy if you want to help. Mark you calendars clean-up starts Saturday September 7, 2007 through the weeks until we're complete. Come all handymen, painters, cleaners, gardeners and the like. Let's do this community style.

We also want to develop other community events at the center. Have you got a talent you'd like to share? What about the children when they get off from school. Can we do something for them at the center. Oh! Seniors and Parents with out of school children what can be done for them as well. Our lights are on there's gas in the tank and the water is on...Let's get busy.
